eCLAWS Gatekeeper Introduction:
eCLAWS is a simple contract and agreement workflow system that asks questions to help contract submitters provide the right information needed by the Gatekeeper, Reviewer(s), and Signatories in order to process contracts as quickly as possible.

**NOTE:** A TEST version of eCLAWS has been created for users to review/train/practice. To access the TEST environment, log into eCLAWS-TEST with your My Northeastern credentials. The Production environment should only be used for actual contract and agreement submissions.

The eCLAWS application follows the existing Gatekeeper business process, whereby the school/business unit Gatekeeper is responsible for the business review of contracts. There is a primary Gatekeeper, and one or two alternates assigned at ORG, DIV, and/or EXEC levels of the Banner Hierarchy.

As a Gatekeeper, your dashboard provides the list of items associated with you in your role as Gatekeeper; keeping the eCLAWS dashboard open on your desktop is the easiest way to see the work in your pool/queue.

Gatekeeper, Reviewer, and Signatory are roles in the eCLAWS workflow; for each of these roles, contracts are sent to the associated pool; no contract is automatically assigned to a person with that role (e.g. the Primary Gatekeeper). The business process governs that the Primary Gatekeeper should monitor the work sent to the pool, and assign appropriate records to themselves.

As Gatekeeper, you will only see work in your pool if you have been assigned the Gatekeeper role, and are affiliated with the department of the NU Contact specified in the eCLAWS record.

Colored dots in the dashboard at the “Submitted to Stop” column are used to visually indicate how long the record has been at a the stop in the workflow:

<table>
<thead>
<tr>
<th>eCLAWS ID</th>
<th>NU Contact</th>
<th>Other Party</th>
<th>Purpose</th>
<th>Type</th>
<th>Status</th>
<th>Owner</th>
<th>Submitted to Stop</th>
</tr>
</thead>
<tbody>
<tr>
<td>20-C-00031</td>
<td>Timur External QA Lead</td>
<td>ADE : Active Data Exchange</td>
<td>Purchase of Goods &amp; Services (Procurement)</td>
<td>Gallery 360</td>
<td>Under Review - Pending Institutional Review</td>
<td>Timur djurev</td>
<td>08/20/2019</td>
</tr>
<tr>
<td>20-C-00031</td>
<td>Marlon Sanchez</td>
<td>LL : MIT Lincoln Laboratory</td>
<td>Purchase of Goods &amp; Services (Procurement)</td>
<td>Lease: Equip</td>
<td>Under Review - Pending Institutional Review</td>

<td>06/13/2019</td>
</tr>
</tbody>
</table>

At the Gatekeeper stop, the dots change at shorter intervals than they do at Reviewer or Signatory stops. This table indicates the intervals at which the dot colors change:

<table>
<thead>
<tr>
<th>Role</th>
<th>Blue dot</th>
<th>Yellow dot</th>
<th>Red dot</th>
</tr>
</thead>
<tbody>
<tr>
<td>Gatekeeper</td>
<td>1-7 days at stop</td>
<td>8-14 days at stop</td>
<td>15+ days at stop</td>
</tr>
<tr>
<td>Reviewers &amp; Signatories</td>
<td>1-14 days at stop</td>
<td>15-30 days at stop</td>
<td>31+ days at stop</td>
</tr>
</tbody>
</table>

Effective 1-21-20
Gatekeeper Review process in eCLAWs (Production)

1. Log into eCLAWS with your My Northeastern credentials:

2. Upon login, confirm the eCLAWS Gatekeeper role in the upper right corner of the screen is shown; To manually select the role, pull the ‘dropdown’ and select:

3. The eCLAWS application is built on Role + ORG access; If you have the Gatekeeper Role, and have been assigned Gatekeeper affiliation with specific departments, contracts associated with those departments will appear in the “My Pool” section of your eCLAWS dashboard:

4. All submitted eCLAWS contracts are sent to the Gatekeeper Pool; any Gatekeeper who is assigned Gatekeeper responsibility for specific schools/units, and who has been assigned the Gatekeeper role in eCLAWS, can select a contract to process. Once you select a contract to process, the contract moves from your “Pool” to your “Queue.” To select a contract to process, select the 3 action dots on the right side of the contract’s dashboard entry, and choose “Assign to me:”

The contract moves from “My Pool” unassigned, to “My Queue” and is assigned to you.

Effective 1-21-20
Alternatively, you can open the record from “My Pool,” and “Assign to Me” from inside the record:

a. Alternate Gatekeepers can also see work sent to the pool, but the business process dictates that he/she doesn’t initially act on it… the Primary Gatekeeper does.

b. Monitoring the colored dots can assist in determining a delay in processing due to the Primary Gatekeeper availability/workload.

c. By selecting “View All” in the “My Pool” widget, and searching for all records with Review Status of “Pending Gatekeeper Approval,” Alternate Gatekeepers can monitor the work in workflow:
d. The Alternate Gatekeeper can reassign a record to themselves (or return to the pool) by selecting the 3 action dots aligned with the record, and selecting “Assign to Me” (or “Return to Pool”):

5. Once the record is assigned to the Gatekeeper, he/she must review the contract details by selecting “Review/Correct Contract Data:”

a. Reviewing the contract details equates to reviewing the paper “Contract Submission Checklist.”
   i. For details on the Contract Data input by the Submitter, see the “Submit a Contract or Agreement for Review” instructions on the eCLAWS website.

b. The Gatekeeper must review each section of the contract data in order to submit the contract to the next stop in the workflow; select “Reviewed/Next” button at the bottom of each page, then “Reviewed/Finish” on the last page:

c. The Gatekeeper can make any changes, but according to the school/business units business process, the Gatekeeper may instead choose to return the contract to the Submitter for correction.
6. **Review the “Route Log” to see where the contract has been, the current stop, and future stops in the workflow:**

   ![Route Log]

   a. **Review the “File Cabinet” to find all attachments associated with the record; The Gatekeeper can add attachments to the File Cabinet by selecting “Add Attachment.”**

   ![File Cabinet]

   7. **Review any related eCLAWs or ePAWs records on the “Related Records” tab:**

   ![Related Records]

   8. **If the Gatekeeper had a question about the contract, he/she can ask it in an “Information Request” (to an individual) or in a “Consult” (particular institutional groups configured for questions directed to a group, e.g. Risk Services, Environmental Health/Safety, etc.). This is a ‘chat’ feature within the record so correspondence about the contract remains part of the record. The two functions work the same, the only difference being the addressees. To add an “Information Request:”**

   a. **Select “Add Information Request” on the right of the “Informational Requests” tab:**

   ![Informational Requests]
b. With Type “Information Request” selected, type the name of the person from whom you are seeking information, and select their name from the resultant search result (this search is linked to Northeastern’s LDAP); then select “Add”

9. Type your message in the space, including the contract number, add new attachments, link an existing attachment from the File Cabinet, then select the “paper airplane” to send the chat to the recipient:

   a. The recipient will receive an email alerting them to the request for information:

   b. The recipient will receive an email alerting them to the request for information:

   c. Notes about Informational Request and Consult chats:
      i. All users with a role on the record can see the chat...the chat is not private between the members of the chat
      ii. For Informational Requests, Chat members who do not have a role on the record can only see the chat and any attachments in the chat (they cannot see the entire record); Consult group members can see the entire record, as they have a pre-assigned role as members of the Consult Group
      iii. Additional users can be added to a chat by selecting “Users” in the upper right corner of the chat box, then and “+Add User”
10. When your Gatekeeper business review is complete, select the “Certify and Submit” button on the “Contract / Agreement Data” tab:

![Contract/Agreement Data](image)

11. Select the “Route Log” tab to see the record has moved to the next stop in the workflow:

![Route Log](image)
12. If the contract is changed after NU signs, and a second review is requested, the record will enter the workflow again; if the contract is re-routed to the Gatekeeper, and the changes are business related only, and inconsequential, you can return the record to the Submitter by selecting “Return as Fine” from the “Contract/Agreement Data” page:

For help with the eCLAWS application, please contact the NU-RES Help Center.
