Federal regulations require that compensation and effort devoted to sponsored projects is appropriately documented and must be supported by a system of internal control which provides reasonable assurance that the charges are accurate, allowable, and properly allocated. This policy defines and establishes University practices for effort reporting and assures those sponsors that salary and wages are properly accounted for.

Accordingly, it is University policy that while salary charges to sponsored projects are made initially based upon the planned or estimated workload of faculty and others, the actual effort of each individual working on sponsored projects must be monitored, with charges modified as necessary based on variances between the estimated and actual effort.
Federal Regulations

As a recipient of federal funding, Northeastern University is required to comply with the CFR, Part 200-Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance).

Section 200.430: Compensation for Personal Services

• Contains the federal regulatory requirements for internal controls over documenting salary charges to Federal awards.

• Provides standards for documentation of personnel expenses.

• Implies that charges to Federal awards for salaries and wages must be based on records that accurately reflect the work performed.

• And that these records must be supported by a system of internal control which provides reasonable assurance that the charges are accurate, allowable, and properly allocated.
Effort & Salary Monitoring

Although the University’s effort and annual certification process provides the principal means for certifying that the salaries and wages are reasonable and allocable, it is important to monitor the activity devoted to those projects on a regular basis.

• University policy requires that such provisional salary and wage charges be monitored by the PI on a regular basis and that any adjustments to the activity devoted be processed on a timely basis.

• It is important that changes in effort are routinely communicated and recorded on the University’s financial records during the course of the fiscal year.

• Department administrators and/or the PI are required to review their monthly payroll distribution reports for accuracy.

• Should an individual be charged to an incorrect index number/project, then a Payroll Distribution Change (PDC) form will need to be submitted in order to make the correction.
Annual Certification Process

The University’s practice is to utilize an after the fact reporting system to certify that salaries charged to sponsored awards are reasonable and consistent with the work performed.

- The Annual Certification Report is the primary means for complying with the federal regulations relating to effort certification.

- Principal Investigators or designated officials with suitable means of verification are required to certify that the total amounts charged to the sponsored awards are reasonable for the work performed on the award.

- If the salary information on the pre printed Annual Certification Report does not agree with the actual effort performed, then a correction needs to be noted on the Annual Certification Report and a Payroll Distribution Change (PDC) form needs to be processed and reviewed by NU-RES Finance.
Timeline

Changes to Annual Certification Report

Revised Certification Language:

I certify that I have first-hand knowledge of (or have suitable means of verifying) that the above payroll distributions reasonably represent both work performed and salary continuity under unexpected or extraordinary circumstances* consistent with university policy. I am aware that any false, fictitious or fraudulent information may subject me to criminal, civil or administrative penalties. (U.S. Code, Title 18, Section 1001).

* Added for FY20 per OMB Memo 20-26, granting flexibilities to awarding agencies to continue charging salaries during COVID-19. Flexibilities were limited and expired on September 30, 2020.

Reviewing Annual Certification Reports

- Confirm salaries are allowable and directly benefit the project
- Check guidelines for agency-specific effort requirements: FDP Prior Approval Matrix
- Flag significant changes of effort for Key Personnel and ensure their commitments are met
- Submit timely prior approval requests
- Ensure payroll charges are in line with activity/personnel listed in Progress Reports
- Ensure that Cost Sharing requirements have been met (if required)
- Remove unallowable costs, such as administrative personnel, payroll beyond period of performance, and charges that do not directly benefit the project
- Process final payroll adjustments via PDCs and note the adjustments under the Revisions column

Reminder:
Annual Certifications are a vital document that is used in audits (annual UG) as well as specific agency audits and reviews.
